

“A NEW PARTNER
new innovations in aesthetic medicine”

The new products line of aesthetic medicine produced by Laboratoires Genevri is part of a quality approach that respects the highest European standards.

Laboratoires Genevri

a FRENCH *research* PIONEER

The close collaboration between Laboratoires Genevri and its subsidiary dedicated to research and development Genbiotech has already enabled the creation of innovative products in the fields of dermatology, musculoskeletal diseases and aesthetics, with two of them obtaining an European label (CE).

a PROXIMITY *everyday*

Located in southern France in Sophia Antipolis since 1987, the Laboratoires Genevri offer a proximity both geographical than human which improve exchange and feedback with healthcare professionals and keep you always at the forefront of innovation.

a RENOWNED EXPERTISE

A French pharmaceutical laboratory recognized in dermatology, rheumatology and now in dermo-cosmetics, the Laboratoires Genevri have developed for more than thirty years innovative treatments based on hyaluronic acid.

 This important task of research and formulation is reflected thus far by filing over 80 patents that cover the major areas of research.

“BEAUTY
has a new
Secret”

iALUGen[®]
HYALURONIC ACID ESTEEM

Laboratoires Genevri
YOUR HEALTH IS OUR PRIORITY

“A NEW RANGE to serve Beauty”

The iALUGEN ESTEEM are the result of innovative technology and have been created to **meet the needs of your patients.**

Each product is available in a 1ml syringe containing:

- ✓ 1ml of high crosslinked hyaluronic acid (HA)
- ✓ 0,3 % of lidocaine
- ✓ Provided with a 27G needle.

VOLUME RESTORATION

GLOBAL WRINKLE TREATMENT

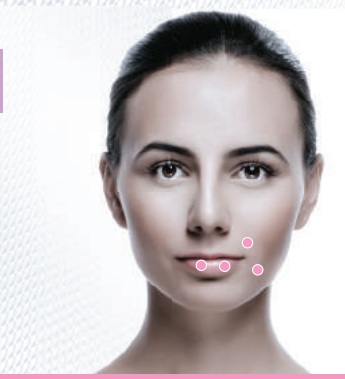

iALUGEN
ESTEEM INTENSE 20 mg/ml

Deep wrinkles, particularly the facial contour
Volume effect : **+++**
Duration: **9-12 months**⁽¹⁾

iALUGEN
ESTEEM SOFT 12 mg/ml

Lip contour
Increases volume
Volume effect : **+**
Duration: **6-9 months**⁽¹⁾

iALUGEN ESTEEM is a Class III Medical Device (CE 0297). Manufacturer : Laboratoires Genevrier

⁽¹⁾ Global satisfaction study performed on 48 patients.

“AN INNOVATIVE TECHNOLOGY for your Safety”

To provide you with a **safe and effective product** and offer you a **comfortable injection experience** for you and your patients, Laboratoires Genevrier carefully select the best raw materials and ingredients for its **innovative formulas.**

A HIGH QUALITY HYALURONIC ACID

The iALUGEN ESTEEM hyaluronic acid is obtained by bacterial fermentation. It is produced according to the highest manufacturing standards to ensure safety⁽¹⁾ use for you and your patients.

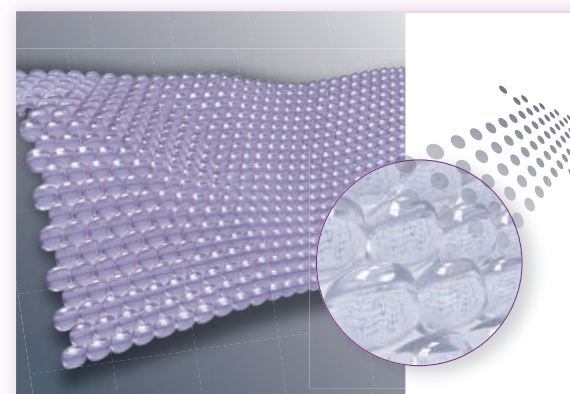

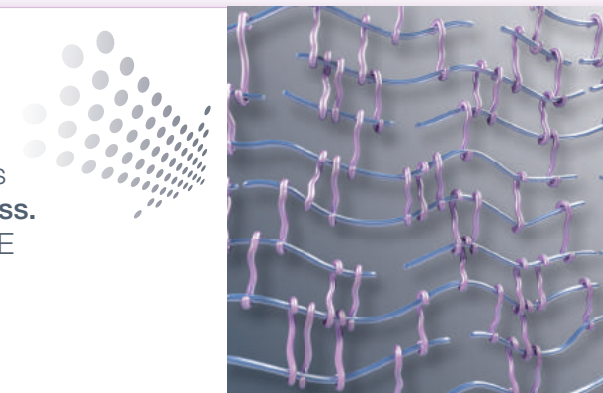

THE INNOVATIVE H.M.D. HYALURONIC ACID (Highly Micronized Density)

The biocompatibility of iALUGEN ESTEEM has been certified in conformity with the ISO10993 standard. The BDDE residual rate is below the limit of detection (<50 ppb).

AN OUTSTANDING LEVEL OF CROSSLINKING

For effective results, the iALUGEN ESTEEM HA is derived from an **advanced cross-linking process**. Its exceptional degree of crosslinking at the BDDE gives it an elasticity and allows it to be resistant to degradation for a **long lasting filling effect.**⁽¹⁾

A HIGHLY MICRONIZED HYALURONIC ACID

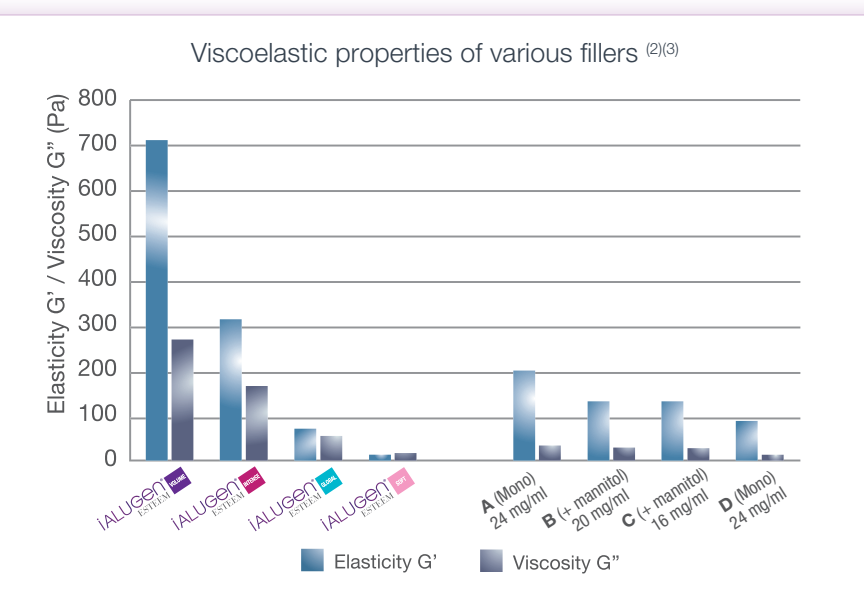

This innovative process of micronisation was developed for optimized particulation. The highly crosslinked HA concentrated in fine particles allows a more flexible and better controlled injection for the **comfort of your patients.**

⁽¹⁾ Global satisfaction study performed on 48 patients.

“UNPRECEDENTED PROPERTIES that comes with Benefits”

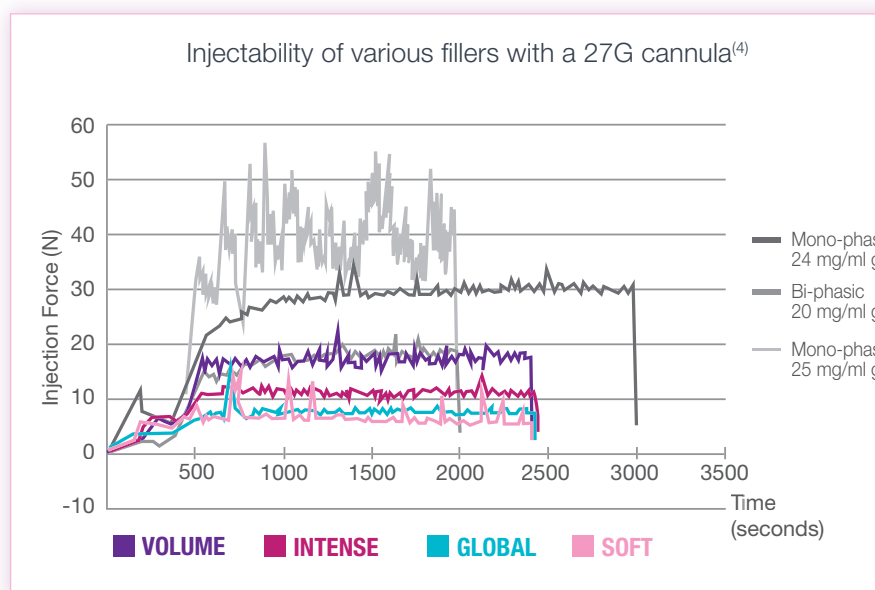

Thanks to their Highly Micronized Density technology (H.M.D.) at the forefront of innovation, the Laboratoires Genevrier have created formulas featuring unmatched viscoelastic properties.

UNEQUALLED VISCOELASTIC PROPERTIES

The high cross-linked hyaluronic acid gives the **iALUGEN ESTEEM** products very high viscoelastic properties to improve the **resistance to deformation** and a **longer effect**⁽¹⁾.

A PRODUCT EASY TO INJECT⁽⁴⁾

Finely micronized formulas feature a viscosity allowing an ease of injection through the needle which leads to optimal flexibility giving you **ideal injection comfort**. Containing 0.3% of lidocaine, formulas **iALUGEN ESTEEM** were designed for a **painless injection**.⁽²⁾

⁽¹⁾ Global satisfaction study performed on 48 patients.
