

**WOMEN'S HEALTH FUELS
MULTI-BILLION DOLLAR GROWTH
OPPORTUNITY**

Over half a million procedures of feminine rejuvenation were performed in 2016, generating more than \$500 million in incremental fees for practitioners.
By 2021, over 27,000 devices will be in use per this forecast, producing an estimated \$2.2 billion in fees.

Women's Health

FORMA V

FormaV is a non-invasive, sub-dermal heating technology for feminine health. Comfortable and uniform RF heating is applied to the internal vaginal tissue and external vulvar laxity or labial hypertrophy. The versatility of the FormaV allows the operator to provide a customized solution to address the variety of feminine health concerns that occur due to aging, hormonal changes, or physical damage. Patients often see results immediately, with continued results over the following weeks.

Specifications

RF Output Power:	Up to 40W
Output Frequency:	1 MHz
Treatment Mode:	Single pulse Continuous repeat mode
Temperature Cut-Off:	Operator adjustable up to 43°C

FRACTORA V

FractoraV uses customized fractional RF energy to improve superficial skin tone and texture problems to deep concerns (deep heating and tightening) through resurfacing. The bi-polar RF treatment allows clinicians to accurately treat a targeted zone for a precise non-invasive treatment. FractoraV allows for full depth heating that improves elastin and collagen remodeling to positively impact a women's feminine health and quality of life.

Heating Depth:	Between 3-5 mm	
Output Pulse Power:	Up to 65W	
Frequency:	1 MHz	
Repetition Rate:	Up to 2 pps	

VOTIVA IS YOUR NUMBER ONE CHOICE FOR A SAFE AND EFFECTIVE TREATMENT FOR FEMININE HEALTH.

Votiva offers immediate results, with continued improvements over time.

The growth in options for feminine health solutions has increased awareness for many health issues that were previously not addressed. As women age, their bodies face a host of new changes, from a loss in elastin and collagen, to physical trauma associated with vaginal widening due to childbirth, to reduced estrogen.

Common feminine health concerns include:

- » Elasticity and wrinkled appearance of the vulva
- » Low blood flow and sensitivity
- » Pain sensation caused by labial hypertrophy
- » Level of sexual interest and self-esteem

The time has come for a safe and effective treatment that is quick and comfortable. Votiva offers technologies that address internal and external treatment, with a resurfacing and/or non-invasive option.
